[NKY Makerspace presents - The Maker Expo](#)

Erlanger, KY - It's time to get creative! Ignite Institute will be hosting its STEAM-making event celebrating creating and technology Mother's Day weekend.

NKY Makerspace will present the **Maker Expo from 10 a.m. - 2 p.m. on Saturday, May 11th, 2024 at IGNITE Institute.** The Expo is an opportunity to engage students in making and inventing. Expo experts and novices in science, technology, and even basement tinkerers will have their latest creations on display. The Maker Expo is a community event built on curiosity, collaboration, and resourcefulness.

The Auto Expo had a positive reception and feedback when it was first introduced last year and will be returning this year. In addition, the Artist Market will be reappearing this year. Presentations and activities related to robotics, 3-D printing, electronics, coding, and STEAM-making will be present. The event will also feature a Brick Build Challenge, and there will be several delicious Food Trucks.

There are expected to be at least 1,000 guests attending this event as vendors and visitors! Families and friends from all over the tri-state will be taking part in the activities at the Maker Expo! Learn more at:
